

# Short 9/11 Truth Speech: “Occupy Wall Street” Events

## A Human Microphone Speech Template Supporting Architects & Engineers for 9/11 Truth

(A Human Microphone Speech that can be given at “Occupy” events around the world)

Mic Check.....

Mic Check.....

What we hear from those gathered here  
is that the news media is not trustworthy.

It lets certain information through,  
while much is censored out.

The 99 percent  
wants to know all.

All about our world.

All ... without a censor

For example,

You have not heard  
in the main stream media  
that over one thousand six hundred  
architects and engineers  
have signed a petition  
demanding a new investigation  
into the total destruction  
of all three skyscrapers  
at the World Trade Center  
on September 11th  
not only the Twin Towers  
but also Building 7.

Do you remember Building 7?

A 47 story skyscraper  
not hit by an airplane,  
yet fell at free-fall  
into its own footprint  
at 5:20 that day

Sounds of explosions ... ignored  
Flashes of light ... ignored  
Perimeter columns rocketed outward ... ignored  
Mid-air pulverization of concrete ... ignored  
1200-foot-diameter debris field ... ignored  
Nanothermite in the dust ... ignored  
Unignited remnants of incendiaries ... ignored  
Bone fragments on neighboring rooftops ... ignored  
Symmetrical, uniform free fall of Building 7 ... ignored

If the undeniable truth  
of the events of 9/11,  
can be hidden in plain sight,  
never discussed by the media,  
censored out of any discussion,  
how will your truths be told  
without being twisted  
like World Trade Center steel.

We encourage ALL of the members  
of ALL emerging truth movements  
to address the reality  
that media censorship  
is destroying us from the inside.  
Only by shedding light  
on ALL of these issues  
can we move forward  
and heal America.

Thank you for being  
our human microphone  
Thank you for  
speaking the truth.
