

ARCHITECTS
& ENGINEERS
for 9/11 TRUTH

November 24th, 2010

Senator Maria Cantwell
c/o John Merkel
511 DSOB
Washington, DC 20510

Dear Senator Cantwell:

On behalf of Architects and Engineers for 9/11 Truth I am formally requesting a Senate inquiry into the official explanation of the destruction of World Trade Center high-rises 1, 2, and 7, as offered by NIST, the National Institute of Standards and Technology.

NIST was tasked by Congress with explaining these catastrophes yet repeatedly failed to account for, or obfuscated, critical evidence in concluding that *fire* was the substantial cause of the towers' destruction.

AE911Truth, an organization with over 25,000 years of combined building and technical experience, has compiled a significant body of evidence clearly demonstrating that explosive controlled demolition caused the destruction of the skyscrapers.

In light of the incomplete body of evidence used by NIST that resulted in deeply flawed conclusions we request that officials from NIST, including Lead Investigator Dr. Shyam Sunder and Co-Project Leader Dr. John Gross, as well as principal representatives from AE911Truth, be called before the Senate to resolve the matter. The Senate Committee on Commerce, which oversees NIST, appears to be the proper venue for this inquiry.

Since both NIST and AE911Truth have already compiled and published our respective evidence, only travel and accommodation expenses are requested at this time.

Thank you for your assistance. Please direct questions to our Seattle representative, Mr. Jeff Rische. He can be reached at jeffrische@yahoo.com

Sincerely,

Richard Gage, AIA
Chief Executive Officer
