

### Dear Law Enforcement Professional:

On September 11, 2001, criminal acts were committed in New York City that killed nearly 3,000 people. Fire and structural damage from airplane impacts were blamed for the destruction of the Twin Towers, and fire alone was blamed for the destruction of 47-story World Trade Center Building 7. We are writing to ask that you take appropriate action given that **over 2000 architects and engineers** have signed a petition demanding a new investigation into the destruction of World Trade Center Buildings 1, 2, and 7 on 9/11.

Many qualified researchers have concluded that the official explanations for the failure of World Trade Center Buildings 1, 2, and 7 on 9/11 are fraudulent, and that 9/11 was a crime of an even worse nature than we were all led to believe. I am the founder and CEO of Architects & Engineers for 9/11 Truth (AE911Truth), a nonprofit organization of technical/building professionals and concerned citizens who have re-examined the **destruction of the three World Trade Center high-rises**. Overwhelming scientific evidence indicates that the destruction of the Twin Towers and World Trade Center Building 7 was not adequately explained by the official theories outlined in the 2002 FEMA and 2005/2008 NIST reports, and that these three high-rises were brought down with explosives.

### Summary of the Evidence

- World Trade Center Building 7 – which wasn't hit by an airplane – falling, in under 7 seconds, at free-fall acceleration on the afternoon of 9/11.
- More than 100 first responders reporting explosions at the Twin Towers and flashes consistent with preset explosives.
- The Twin Towers suffering total destruction in 10 to 14 seconds in near free-fall acceleration which can only occur as a result of preset demolition explosives.
- A massive debris field 1,400 feet in diameter and the presence of several tons of molten metal found in the debris, consistent with the extreme temperatures generated by the use of thermite (an incendiary used to cut through steel).
- An international team of scientists discovering nano-thermitic composite material in World Trade Center dust samples, providing evidence of the presence of advanced energetic materials.
- Wholesale destruction of evidence prior to the completion of the investigation, and the exclusion of significant relevant forensic evidence.
- 90,000 tons of concrete and metal decking pulverized in mid-air, creating the signature dust clouds of controlled demolitions.
- Failure by FEMA, NIST, the 9/11 Commission, the Joint Inquiry, the DOJ, and the FBI to follow the national standard for fire and explosion investigation NFPA 921.

### Implications of the Evidence

The evidence includes a comprehensive body of expert testimony. It is of sufficient caliber to support both law enforcement investigations and judicial grand jury investigations. Our film "9/11: Explosive Evidence – *Experts Speak Out*" features interviews with several of these experts and may be seen at [tinyurl.com/911ExpertsSpeakOut](http://tinyurl.com/911ExpertsSpeakOut). This evidence suggests that 9/11 was a crime much different than the crime we were led to believe it was. As well, evidence from the crime scene was omitted, obfuscated, and even destroyed, suggesting a criminal cover-up.

We are calling for a new, fully funded, independent and unimpeachable investigation.

We have prepared a web page for law enforcement officials and legal professionals to view at [AE911Truth.org/police](http://AE911Truth.org/police). This material explains why this crime may fall in your jurisdiction. As well, additional materials will be supplied upon request by writing to [police@ae911truth.org](mailto:police@ae911truth.org).

### How Do I Have Jurisdiction over 9/11 Crimes?

New Orleans District Attorney Jim Garrison found factual and legal justification to use the resources of his office to investigate the assassination of President John F. Kennedy. He was able to establish this under the principle of *nexus of jurisdiction*. According to this principle, if any element of a crime was committed in a certain jurisdiction, law enforcement officials in that jurisdiction are entitled to investigate any and all aspects of the crime. Such elements of the crime could include phone calls made from your jurisdiction, or participants in the attack traveling through your jurisdiction and discussing the plan for the crime while they are there (conspiracy). It could even include the transportation through your jurisdiction of materials or devices used as part of the crime.

Now that the federal investigations of 9/11 have officially ended with the prosecution of Zacharias Moussaoui, there is no jurisdictional bar to local and state agencies and officials initiating their own investigations and indicting appropriate suspects.

### 9/11: Still Relevant Today

Not a week goes by without the ritual invocation of 9/11 by some government official or agency who wants to pass some new law that will result in the additional curtailment of our rights and the waste of our tax dollars. The American people have experienced a sweeping loss of liberty over the past decade based on the official 9/11 story. The Obama administration has carried Bush administration policies further, asserting the U.S. military's right to override constitutional police powers and due process of law by secretly arresting and detaining Americans, and even potentially torturing or executing them, without charge and without legal representation. We all know that these unprecedented secret activities are continuing.

Unless we work together now, we may well see the end of due process of law in America. All of this is because of an official government story which has been put sharply into question by thousands of distinguished experts and the evidence you will see at [AE911Truth.org/police](http://AE911Truth.org/police).

### Take Action Now

We are asking you to take appropriate action by:

1. Reviewing the evidence starting at [AE911Truth.org/police](http://AE911Truth.org/police) and forwarding the evidence to anyone you think might help.
2. Contacting us at [police@ae911truth.org](mailto:police@ae911truth.org) with your professional advice on how to further pursue this criminal matter.

Please do not dismiss this letter without at least reviewing the evidence. We need your help to achieve an independent, subpoena-empowered investigation that will follow the evidence – wherever it leads – before it's too late.

Sincerely,

Richard Gage, AIA  
CEO/Founder  
Architects & Engineers for 9/11 Truth
